## MAJOR PROJECT

- **Project Name:**

UI/UX Major Project

**Project Description:**

CompEduLimited is an online education provider. They are looking to design and develop an up-to-date system to cater to the needs of their growing business effectively. Due to the rapid increase of online education and to stay ahead of its competitors, the company has decided to improve the layout of its existing system in order to improve learners' online experience.

For the purpose of this assignment, you are required to improve the end-users' journey for the following online services. Consider the website, mobile, and iPad-friendly design.
